

Figure 1

GST - Z2 - DBD

CRD - HA - Z2 - HIS₆

CRD - HA - Z2 - PEST - HIS₆

CRD - HA - NLS - Z2 - DBD - HIS₆

CRD = Cell recognition domain for cell surface binding

HA = Hemagglutinin epitope tag

Z2 DBD = Z2 zinc finger DNA binding and multimerization domain of RIP60

PEST = Protein motif for rapid degradation of carrier protein via ubiquitin-proteasome system

HIS₆ = hexahistidine tag for purification by Ni-NTA chromatography

GST = Glutathione S-Transferase Tag For Protein Purification
